DETAILED ACTION

The following is an examiner's statement of reasons for allowance: the references in combination does not teach and suggest a reasonable motivation for the combination of features (1), (2), (3), and (4) of claim 1. Specifically, the references does not teach the monitor light as being received from the light that is generated in an optical waveguide connection portion of an optical waveguide and passed through the substrate. Therefore, claims 5, 8-11, and 44 are allowable by virtue of dependency on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erin D. Chiem whose telephone number is (571) 272-3102. The examiner can normally be reached on Monday - Thursday 9AM - 5PM.
